# LANGDON MEETS FATHER.

# Parting May Hasten Woman's Death, It Is Said.

[BY TELEGRAPH TO THE TRIBUNE.]

Bridgeport, Conn., July 16.-Mrs. Janet Wilon, the escaped inmate of the Hudson River State Hospital for the Insane, at Poughkeepsie, N. Y., who shot herself in the left breast last night at the Washington Bridge Tavern, in Milford, and Walter Langdon, who assisted her to escape, met probably for a final parting this afternoon. Langdon remained at the hospital most of the night after accompanying Mrs. Wilson to the hospital in a carriage after the shooting. About noon to-day he left the home of Walter Judson, in Stratford, just across the Housatonic River from the Washington Bridge Tavern and together they went to the Bridgeport Hospital, where Langdon and the probably mortally wounded woman held a brief but

It is said that Mr. Langdon's father, Dr. Charles Langdon, of the retreat from which Mrs. Wilson escaped, met his son in Hartford, and he was made to understand that it would be best for him to leave this State for the time being. Walter Judson, who accompanied Langdon on the trip to see his father, is a chum, they having been in the Washington Electrical School together. Mr. Judson, it is understood, had advised Langdon to leave Mrs. Wilson for the best interests of all concerned.

Considerably more was learned to-day of the details which led up to the shooting. C. L. Libbey, proprietor of the Washington Bridge Tavern, said that he did not believe that Mrs. Wilson's act was due so much to the refusal of her friend in New-York to furnish her with money as to the action of a Derby police officer, came to the hotel yesterday, and, after getting in conversation with Mrs. Wilson, tried to intimidate her by saying that he had papers with him to serve on her if she did not obey his instructions. This policeman was in her room instructions. This policeman was in her room when young Langdon returned from New-York, and the young man appealed to Mr. Libbey to eject him. Mrs. Wilson was crying hysterically because of fear that she would be taken back to the sanatorium by the policeman, and then when she learned that her friend in New-York would not assist her she became so despondent and hysterical that she shot herself.

"The young man's friend, Walter Judson," said Mr. Libbey to-night, "came and took his be-

"The young man's friend, Walter Judson," said Mr. Libbey to-night, "came and took his belongings away this morning, but Mrs. Wilson's are still here. They are not very extensive, but I shall send them to the hospital to-morrow. She had scarcely any jewelry. She was a finely educated woman, and played the piano and sang here much of the three days she was with us. She is a graduate of Vassar, so she told me."

At the Bridgeport Hospital to-night it was told the Mrs. Wilson was not so well as this said that Mrs. Wilson was not so well as this morning. Her temperature had risen, and in some other respects she was worse. The bullet has been found. It passed through the chest wall into the pleural cavity, and it is feared that from the wound complications may ared that from the wound complications may se that will prove fatal. The parting be-een Mrs. Wilsen and young Langdon is be-ved to have aggravated her case.

# New-Yorker Complains to Yonkers

East 123d-st., New-York, reported at Police Headquarters, Yonkers, last evening that he had been robbed of a pocketbook containing \$500 while riding in a Warburton-ave, trolley car from Hastings to Yonkers. Lehman had gone to Uniontown with a party of friends. About 7 o'clock he left Hastings for Yonkers, riding down by trolley car. As usual on Sundays, the cars were crowded, many standing on the running board at the side. When the car reached Mainst., Yonkers, where a transfer must be made

to a New-York car, Lehman missed his pocket-book. He immediately reported is loss to Police Headquarters.

Little hope is expressed of apprehending the third. Every Sunday thousands of New-Yorkers pass through Yonkers to resorts at Hastings and Uniontown, and the cars are loaded far beyond their capacity. Operations by nickpockets have their capacity. Operations by pickpockets have been made correspondingly easy, and many losses have been sustained.

# POLICE FIGHT CROWD.

### Two Thousand Try to Enter New St. Louis Synagogue.

St. Louis, July 16.-A crowd of over two thousand persons fought with the police to-day in a wild scramble to gain admittance to the dedication services of the new synagogue of the Congregation Sharis Sphard. Many were clubbed, hats were crushed, women's dresses were torn and several women fainted. After the parade from the old synagogue to the new the edifice was quickly filled doors were closed on a crowd that filled the street for a block. The outsiders tried to force the doors open and a cordon of police was summoned. For an hour the police endeavored to keep the crowd back, but a number of persons grew belligment and police clubs were brought into play. In the confusion B. Frank, one of the directors of the congregation, who was stationed at a door, was fragged into the street and roughly handled. Finally the police got the upper hand and the street was partly cleared and order restored.

#### Six Arrested at Italian Festival Have Bank Accounts.

Detectives of the Charity Organization Society esterday brought into the Harlem police court six alleged beggars, all property owners and with substantial bank accounts, who, the detectives said, had formed themselves into a kind of beggars' trust to "do" the Italian feast of Our Lady of Mount Carmel, which is being celebrated in Harlem's Little Italy.

George B. Missick and Frank A. Flynn were the society's agents. They told Magistrate Moss that the six men made a regular business of working these Italian fairs and religious fetes, and the property found on the men seemed to bear this out. One of the men had \$588 in bills and \$3 51 in coins in his pockets when arrested, and another had a bankbook showing that he had deposited about \$1,400 and paid out all but \$650, other papers showing that the withdrawals went to his friends. All the prisoners owned up to being landlords. They said that they were collecting money for devotion to re-

### Complainant Held After Defendant's Discharge Wants To Die.

Suddenly finding himself transformed from complainant to prisoner and facing six months on the island, Anton Goodridge, of No. 272 Forest-ave., Jersey City, and a truck driver for a New-York firm, made several desperate attempts to kill himself in the Tombs police court

Goodridge, Peter F. When arraigned in court, a few hours later, the situation changed. Magistrate McAvoy decided that the pedler's story that the men, after grabbing some peaches from his stand and refusing to pay for them, had attacked and beaten him was the true version, and that the tales related by Goodridge and Eagan that the pedler had tried to cheat them out of change for a

# INVESTING BIG SUMS.

### Improvements in Long Island City Will Cost Over \$75,000,000.

Enterprises of a public or private nature are ow under way in Long Island City that mean an expenditure of more than \$75,000,000. The principal ones are those of the Pennsylvania, whose tunnel will end in Long Island City. These, it is estimated will cost \$50,000,000. The Blackwell's Island Bridge will cost at least \$10,-000,000 and the new Belmont tunnel, work on which began a few days ago, will probably equal the bridge in cost. Those three enterprises represent an estimated investment of

Newtown Creek, to connect Long Island City with Greenpoint, and its cost is placed at \$1,000,000. The new gas works building at Woolsey's Point, on the Long Island City shore of the East River, will cost at least \$5,000,000, and the East River Gas Works, in Ravenswood, have recently been enlarged, and the improvements to that plant are said to have cost fully \$5,00,000

\$500,000. There are under construction additions to public schools in the city that will cost fully \$300,000, and new schools were completed late in the spring that cost at least \$250,000 more. The city will build a new borough hall that it is expected will require about \$400,000 to complete. Two new firehouses were finished within the last few months and their cost is said to the last few months, and their cost is said to have been about \$150,000, and a new police station in the Hunters - oint section costing an even \$160,000.

## Three Persons Have Miraculous Escape from Death.

Wilkesbarre, Penn., July 16.-J. S. Sanders, a veteran newspaper man of this city, his son-inlaw, Dr. Morgan Weller, and Mrs. Weller had a miraculous escape from death by being run down by a Pennsylvania coal train at a street crossing here this evening. The party was crossing the tracks in an automobile and was caught by the train, which was backing down from the yards. The automobile was dragged nearly two hundred feet, and its occupants were hurled down a twenty-foot embankment. Mr. Sanders had a leg broken in two places, and is injured internally, and Dr. and Mrs. Weller were badly shaken up and bruised.

#### AUTOMOBILISTS TRICK OFFICERS.

#### Hire Detectives to Watch Deputy Sheriffs and Warn Speeding Cars.

Under the auspices of the State Automobile Club. it is alleged, four patrolmen have been stationed on the roads most used by automobilists for the purpose of warning them that deputy sheriffs are lurking in ambush. The men are paid \$2 a day and \$5 for Sunday work. They are Henry Hallock, sr., and his son; Jacob Riichie, of Patchogue, and Louis Smith, of East Patchogue, working under Nat Roe, of Patchogue.

It has been the practice of deputies to ambush the elder, and told the pastor to themselves at the ends of measured courses, and plaint to Commissioner McAdoo. time passing automobiles, signalling their fellows to make the arrest if the stop-watch showed more than legal speed. The automobilist, not having held a watch, could offer no adequate defence, and a fine followed, the deputy receiving a share. Naturally, the commission offered rendered the deputies keen to make as many arrests as possible.

Many automobilists allege that arrests were made when machines were well within the law.

The idea was conceived by some speeder that if deputy sheriffs were able to lay traps for them it was possible to track the deputies and learn their game. The hiring of the men named is the initial experiment, and it is said to work like a charm. sooner do the patrolmen discover deputies measuring off stretches of road than they plant themselves in the neighborhood, one on either side of the outposts, and warn automobilists of the proximity of the deputies. It is well understood that an arrest elsewhere than on a timed course will not produce a fine. The deputies appear to be ompletely thwarted.

In Suffolk County, where the deputies have been most active, and where, as is known, one deputy indulged in pistol practice at a party of motorists, it is believed the automobilists are now "getting back" at the deputies for the indignities heaped upon them during the last two or three years.

Deputy Sheriff Bedell was one of the men picked out to suffer. He was driving a spirited horse and leading another yesterday when a large touring car passed him near Great River and struck the led horse on the flank and upset his buggy. When Bedell picked himself out of the ditch and righted his overturned buggy he looked for the car's number. But the car was over a mile away by that time, and only the memory of a great, horse laugh lingered in the dusty air.

Bedell caimed the horses' ruffled feelings and started along the road again. He had travelled less than haif a mile when he saw five automobiles, apparently racing muchines, approaching at a terrific speed. The road was narrow at the meeting place, which was close to the Cuiting estaite, and the first machine hit the hub of Bedell's rear wheel, ditching the vehicle, which the horse dragged along for a hundred yards, with Bedell clinging to the lines. Again Hedell essayed to discover the numbers of the machines, but they were far away before he had quieted his horses.

Since patrolmen have been on the roads leading into Patchogue two weeks ago there has not been a single arrest for speeding.

The Bournes, of Oakdale; the Roosevelts, of Sayville; the Vanderbilts. Charles F. Murphy, Danlel Noble, of Jamaica, and hundreds of other automobilists are said to be among those warned by the patrolimen. Some of these, the Roosevelts, for instance, needed no warning, for their machines are never speeded beyond the legal limit, but that the warnings have been of use to many is best evidenced by the fact that there has not been a single arrest for speeding since the patrolimen took their stations on the roads, whereas arrests before were frequent. The automobilists regard the patrolimen as a blessing. lost active, and where, as is known, one deputy indulged in pistol practice at a party of motorists.

# ANOTHER FAN FOR THE SUBWAY.

#### The city is building a new lift bridge over Air Experiment Enlarged-Engineer Points Out Needs of Main Tube.

That the air in the subway will be benefited by the intallation of exhaust fans similar to those now at the Brooklyn Bridge station no one who has stood near the one on the downtown side of the station will deny. It was given to the workmen at the 14th-st. station to make their labor more bearable. It is similar to the one used below the Brooklyn Bridge station. These two fans are to be augmented by two

With Mrs. Berenice Davis, of Manhattan, a guest at the Watchogue, Mrs. Terry entered the Methodist Church yesterday, carrying the razer in her hand. The service had begun, and the two women seated themselves. The day was warm, and Mrs. Terry absentmindedly raised her hand, which clutched the handle of the razor, and flourished the implement about her face, as if it had been a fan. There was a subdued laugh in nearby seats. Then Mrs. Davis leaned over and called Mrs. Terry's attention to what she had in her hand.

#### Sunshade Prevents Girl from Seeing Approaching Express Train

A brakeman named Holmes was yesterday repaid by a smile for rescuing a woman from death under an express train. A westbound train had stopped at the Lynbrook station of the Long Island Railroad to allow an express to pass. The express, which runs from Babylon to Jamaica without a stop, was approaching the local, which was standing upon the siding, when a young woman started to cross the track. She carried a parasol, and that sunshade nearly that he has not been employed for some cost her her life, for it hid from her view the approaching train.

"Look out for the train!" Holmes shouted.

The girl glanced at the stalled train contemptuously, her parasol held jauntily over her shoulder. She evidently had not seen her danger, and walked more slowly than before, because, as she believed, the brakeman had given her a false warning just to scare her.

There was no more time for words. Holmes sprang forward and sized the girl by her arm. Just as the express whizzed past he pulled her from the tracks to a place of safety.

The girl, with a woman's quick wit, took in the situation at a glance. She smiled at the brakeman and thanked him for his prompt action, and then tripped breezily away toward the summer settlement.

Mrs. Pauline Adal, wife of Leon Adal, baker, at No. 141 Essex-st., was suddenly taken ill last Mon-day. The husband called in Miss Dora Glassman, manager of the bakery, who realized at once that the canned herring which the family ate the evening before was the cause of the trouble. While she tried to relieve the sufferer the little daughters of Mr. Adal. May, seven years old, and Rose, three years old, were taken ill, as was Mr. Adal himself.
Miss Glassman sent for Dr. Morris Fallick, of No. 70 Clinton-st., who saw that the whole family was in a serious condition. He found it necessary to call in Dr. Jacob Haas and Dr. J. Held for con sultation. After several hours' work the family was declared to be out of danger.

# TALK OF CROMWELL FOR MAYOR.

#### Republican Nomination May Go to President of Richmond Borough.

Talk of possible candidates for the Republican commination for Mayor yesterday centred to some extent on George M4 Cromwell, Borough President of Richmond, the sole survivor of Mayor Low's administration. It was recalled that at the Re publican convention at Saratoga last year Mr. Cromwell was for some time the man most strong, by urged for Lieutenant Governor. His elimination of himself from this field, after consultation with his constituents, was believed to be also a re-sult of a more or less tentative proposal that he should be the candidate for Mayor this year. This and the desire to retain the single Republican vote in the Board of Estimate and Apportionment were believed to be reasons that materially influenced believed to be reasons that materially innuences his advisers.

Although the nomination of a Mayor from the smallest borough of the city would be entirely unprecedented, it is acknowledged that Mr. Cromwell's candidacy would be of unusual strength, since it would be calculated to win the approval of the smaller independent bodies. Even the Citizens Union has several times indorsed him, and his nomination is believed in some quarters to be one that would contribute to fusion.

# FRENCH POODLE A BURGLAR ALARM.

#### Awakens Mistress, Who Holds Intruder Till Husband Gets a Pistol.

A dainty French poodle early yesterday aroused Mrs. Albert H. Cross, of No. 51 Manbattan-ave., to the fact that there was a man in her room, and thereby, she believes, saved Courtney, who lives at No. 311 Madison-st., \$500 to herself and husband. Mrs. Cross was awakened by the persistent barking of her pet, cide by Patrolman Clarkson, of the Greenpoint- and saw a man crouching in the corner of the ave, station, and in the Manhaitan-ave, police room. She sprang out of bed without waiting held him, though he proved to be big, until Mr. Ulakey was serving a number of children with | Cross came to her aid. The husband then got ice cream sandwiches when his attention was a revolver and held the man at bay, while his wife called up Police Headquarters on the

> The prisoner said he was Ernest Chaffee, and that he lived on the floor above the Cross apartments. He had left his night key in his room, he stated, and had attempted to get home by way of the fire escape and the window, but had entered the wrong place. Mr. Cross says that his window was down, and the weights broken so that it would be impossible to have raised it from the outside. A bunch of keys was found on Chaffee, one of which fitted the street door, the police say, and would have admitted him the regular way.

#### Hebrew Children, on Outing, Eager to Punish Assaulter.

Tenaro Tartano, sixteen years old, of No. 750 East 138th-st., was fined \$5 by Magistrate Cornell in the Morrisania police court yesterday for throw-ing a stone into a crowd of boys from the Hebrew Orphan Asylum who were being treated to a ride on a trolley car in The Bronx on Saturday night. As the car came along and stopped a crowd of boys who were to the street began to jeer the orphans, and a race riot might have ensued if the boys on the car had not been restrained by their teachers and the police had not attended to the others. Tartano was caught by James M. Dillon, claim agent of the Union road, and arrested. Tartano pleaded that he did not throw the stune.

### STILL AFTER CARLTON.

# Police Find No Important Evidence,

on the record of Frederick E. Carlton, whose two wives died of tetanus under what are thought to be somewhat peculiar conditions, it was said last night that they had found nothing which would warrant them in making any formal charge against the man.

second wife, who died in the Long Island College Hospital in March. He gave Detective Sergeant waden a number of blank suspicious on Saturday
and gave him authority to fill them in and serve
them upon any one the detective thought might be
able to throw any light on the case. Among those
who will be called are the two doctors who attended Mrs. Carlton before she was taken to the
hospital, as well as the physicians who had her
case in the hospital. Some young women who knew
Carlton are also expected to testify.

It is expected that District attorney Clarke will
apply to the Supreme Court to-day for a special
order for the exhumation of Mrs. Carlton's body.
If it is granted, no time will be lost in making
a chemical analysis of the contents of the stomach.
If this does not reveal anything suspicious, no
further action will be taken, probably. The polica
are now waiting for this before making any move.
Meautime they continue to collect all the evidence
possible regarding Carlton's career.

Inquiries were being made yesterday with the
idea of ascertaining whether or not Carlton was
ever addicted to the personal use of cocaine. If it
is found that he was not, he will be asked to what
use he put that which was missing from the half
full bottle, one of two, found in his trunk by Captain Condon on Saturday night.
